

TRUETT

CONFERENCE CENTER & CAMP

Truett cares about our Staff, our Guests and our Community. Because we care, we are asking you to take precautions to keep yourself and others safe and healthy, especially in light of the recent developments with the Coronavirus (COVID-19) in the U.S. You can learn more about (COVID-19) by visiting [cdc.gov/coronavirus/2019-ncov](https://www.cdc.gov/coronavirus/2019-ncov). We will continue to actively monitor developments as we remain in contact with local/state agencies, and to follow the direction of the NC Division of Public Health, Centers for Disease Control (CDC) and the World Health Organization (WHO).

What you can do:

- Clean your hands frequently and thoroughly for at least 20 seconds with soap and water, especially after you have been in public places
- If soap and water are not available, use a hand sanitizer that contains at least 60% alcohol
- Avoid touching eyes, nose, and mouth with unwashed hands
- Cough or sneeze into tissue or your sleeve or arm, not into your hands
- Avoid close contact with others that are sick
- For the safety and well-being of others. If you are sick, please stay home and take care of yourself

These are a few of the steps Truett is taking:

As always, the health and safety of our campus remains a priority. In light of COVID-19 our Facilities and Housekeeping staff are taking extended measures with sanitizing high-traffic and high-touch areas in addition to daily routine cleaning and sanitizing measures already in place. You will find hand sanitizing dispensers located throughout our campus and especially in high-traffic areas. We are actively implementing the preventative guidelines outlined by the CDC and ensuring that all hand washing stations/restrooms are restocked more frequently.

- Daily health screenings (including temperature checks) of guests and staff including during check-in
- Keeping cabin groups and cohorts together
- Providing hand sanitizer in strategic areas of camp
- Daily sanitizing of commonly touched surfaces
- Increasing handwashing
- Continuing to clean at the high standards we have for our camp
- Changing procedures with worship and dining to promote social distancing between guests and cohorts.

Please join us as we pray for those affected by this illness, their caregivers, and those working diligently to minimize the impact of this virus.

COVID-19 Guidelines

Do you
have these
symptoms?

- Fever
 - Cough
 - Colds
 - Headache
 - Diarrhea
 - Shortness of breath
 - Sore throat
 - Joint and Muscle Pain
-

Have you
had Exposure?

- Exposure to a confirmed COVID-19 patient within the past 10 days.
 - Exposure to a Person Under Investigation (PUI) for COVID-19
-

**With Exposure +
With Symptoms:**

- If young (<60 years old), with no other illnesses and mild symptoms: Conduct home quarantine.
